

TERRAGAVE

2022

# A UNIQUE LOCATION, A SECOND LIFE

Our story starts in the fields of agave in **Jalisco, Mexico** where agave plants are grown in massive quantities due to the global demand of tequila production.

Terragave products are made with a repurposed strong raw material left as a residue of the **Tequila** production: agave fibers.

We take these fibers and give them a second life. By mixing them with other materials we achieved a one-of-a-kind **sustainable, durable and biodegradable** planter.

NATURAL AGAVE FIBERS + DURABLE PLASTIC =

A ONE-OF-A-KIND  
BIODEGRADABLE PRODUCT

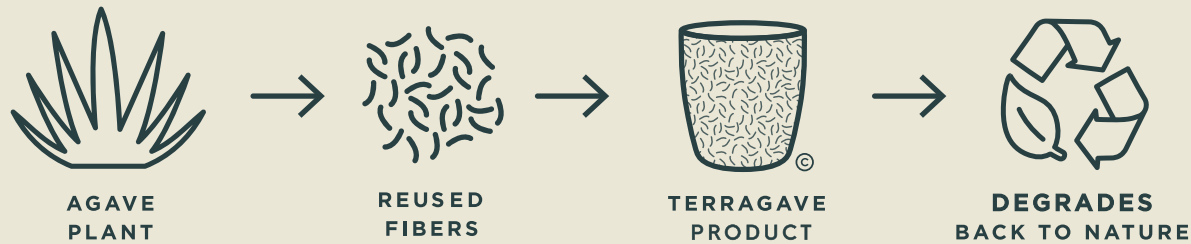

® 2017

TERRAGAVE

MADE WITH BIODEGRADABLE  
REPURPOSED AGAVE FIBERS

# THIS IS TERRAGAVE

UNIQUELY  
*from*  
MEXICO

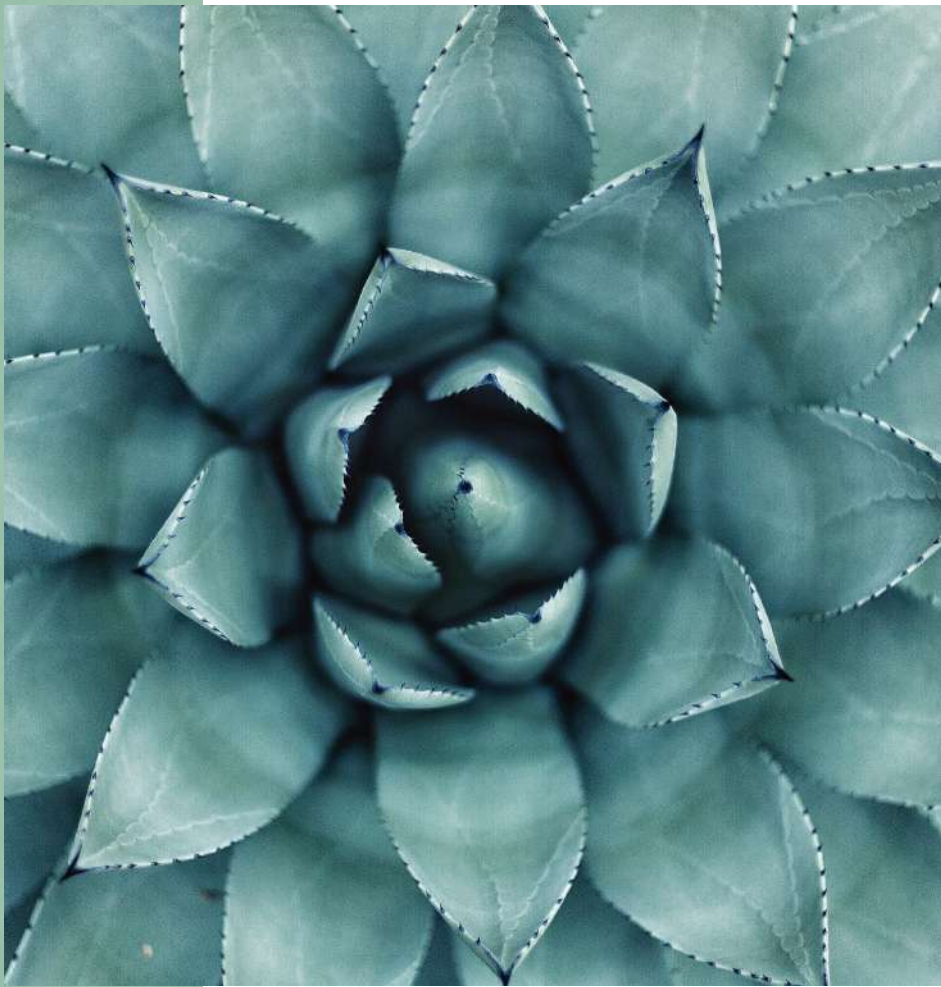

for INDOOR  
and OUTDOOR use

The Terragave  
Difference

Terragave challenges any and all previous notions about biodegradable products. Its practical and beautiful design, plus lightweight features, make it even more appealing to the environmentally friendly customer. These are the products our socially responsible audience has been asking for.
