

Altomonte Flowerpot

INSPIRATION

The Altomonte Flowerpot combines a timeless design with a textured pattern of lines that evoke order and balance. This piece celebrates the beauty of simplicity and thoughtful craftsmanship, transforming the everyday into something special.

Its design is inspired by those moments of calm that invite us to pause, find serenity, and reconnect with the essentials. Every detail has been carefully crafted to convey balance, from its dynamic texture to its soothing color palette.

With its modern and minimalist style, The Altomonte Flowerpot effortlessly adapts to any space, from classic to contemporary, becoming a versatile element that enhances your home's aesthetic with ease.

SELF-WATERING

The self-watering system allows plants to supply themselves with water for a period without constant watering. This is made possible by a water reservoir located at the base of the pot, which keeps the plants hydrated, mimicking the natural moisture of their habitat.
