LÍNEA *Art*

PREMIUM FURNITURE

LÍNEA *Art*

ART line is an impressive fusion of forms and styles that go beyond mixing traditional materials with modern in sophisticated ways, creating a bold and elegant concept.

For its technology - **ART Air Reinforced Technology** - that injects gas nitrogen in the manufacturing process of the product, this line guarantees high resistance and durability. Furthermore, thanks to the pressure exerted by the gas uniformly on the piece, deformations are minimized, achieving greater quality and better structure of the pieces.
